

Revision of Lightning Warning Procedures

With the recent changes to COVID-19 related safe management measures and the relaxation of movement controls within the Club facilities, we are pleased to roll out amended procedures that will reduce the impact on golfers affected by lightning warnings. Starting with booking dates from April 4 onwards, please take note of the following changes to the lightning warning procedures:

- **Course Evacuation**

- Upon notice through the buggy GPS screen and the subsequent siren, all golfers are to seek shelter at the halfway house, rain shelters or return immediately to the clubhouse and seek shelter in the Nest or the main clubhouse.
- Only golfers retiring for the day and are stopping their game will be granted access to the indoor buggy car park.
- For ease of returning to the golf course after the lightning warning, golfers should park their buggies at or near the buggy staging area of the course they are playing.
- **The basement car park will no longer be used as a buggy overflow area.**

- **Tee Time Movement**

- All tee times that are within the specified lightning warning time will no longer be cancelled. Golfers in these affected tee times will be given the option to:
 - Cancel the tee time without penalty.

- Shift the tee time to a slot AFTER the final time of the respective session.
 - All tee times will be shifted in order of their original booking and will only be amended if a flight cancels.
- Please see below chart as an example

Tee time		
7:13		
7:21		
7:29		
7:37	Lightning warning from 7:35 - 8:05	
7:45		
7:53		
8:01		
8:09		
8:17		
8:25		
8:33		
8:41		
8:49		
8:57		
9:05		
9:13		
Shifted Time	Original Time	
9:21	7:37	
9:29	7:45	
9:37	7:53	
9:45	8:01	

• Morning Session

- Please note that the cut-off to cross over for the second 9 holes will be 11:45 am for morning sessions.

- **Afternoon Session**
 - Afternoon session times will not have a specified cut-off time and will take priority over evening 9-hole tee times.
- **Evening Session (9 holes)**
 - As per pre-COVID-19 procedure, priority will always be given to 18-hole tee times from the afternoon session. In the event of an afternoon lightning warning, evening times will be cancelled and only allowed to tee off after the afternoon times have crossed over.
- ***NOTE – the safety of our Members and staff is a priority. As such, any Member who continues to play during a lightning warning or access the golf course before being instructed by Club officials will be subject to disciplinary action.**

Information on course closures and lightning warnings can be found on our Lightning Update page on the Club's website: <https://www.lagunanational.com/golf/lightning-update>.

The above practice will be implemented from April 4, 2022.

The Management
